

## Airport Stats

2026 began strongly for air passenger traffic, showing a 2% increase on January 2024 - an uplift of 984 passengers. At this early point in the year, fluctuations on individual routes amount to only a few hundred passengers at most, which makes detailed commentary on scheduled routes challenging. The one exception was the Jersey route, which recorded a notable 13% rise compared with 2024, representing an additional 528 passengers.
